Child's Age in Photo

Date Photo Taken

Remember to update your child's photo every 6-12 months!

Important Information for Parents

1. Teach your child how to use 911. Your child should also know his or her full name, address and phone number.
2. Teach your child about the dangers of strangers. For example, never go anywhere with someone they do not know. Do not approach an unfamiliar car.
3. Do not place your child's name on personal items. This information could be used by strangers.
4. Teach your child what to do if you are separated in a public place.
5. Know exactly where your child is and who they are with at all times.

There is no waiting period before a missing child can be reported to the police. Report it immediately and have the info they will need on hand.

NO INK STRIP?

No Problem!

Quick & Easy DIY Fingerprinting at Home:

Option 1

Ball Point Pen & Paper

Step 1) Take a ball pen refill, pull out its nib.

Step 2)

Blow it from the back so that a drop of ink falls on a sheet of paper.

Step 3)

Spread it thoroughly and place thumb on a sheet and you are ready to imprint your thumb impression.

Option 2

Markers & Paper

Step 1) Choose any marker that you want, but washable markers for kids are best if you want to prevent staining your fingers.

Step 2) Color with the marker on a piece of absorbent paper, such as newspaper. Make a small patch of color slightly larger than your finger. Go over it until the small patch is beginning to saturate, but not enough to rip or go through the paper.

Step 3) Press your finger onto the patch and immediately make your print where you want it. You can continue using the patch in place of an ink pad until the prints begin to get fainter. Color a new patch to start over.
